

# Reaching Toward Heaven

## Chapter Six

### FAITH SUFFICIENT FOR MIRACLES

DO YOU BELIEVE you can actually have miracles in your life today? It is no secret --- you can! Through unpuzzling the laws of faith and using them, you can catch a glimpse of and start to achieve the beautiful rewards which the Lord holds in store for you, both here and hereafter. You can begin to experience the miracles you would like to have in your life, right here, right now. Through faith, lives are transformed and people experience a joy they have never anticipated or experienced before.

Can Faith actually be that strong? Can it produce miracles in my life and yours? We read about miracles in the scriptures and we accept them, but somehow we feel those things could not happen to us today? Yet the people in the scripture stories were regular human beings, just as we are. Their miracles came about when they obeyed the laws of faith, just as they can and will for you and me as we learn the laws of faith and put them into practice in our lives.
